As a web developer, my objective in the industry is to help create the best user experiences possible for the client. Also, to work alongside my co-workers to gain knowledge, experience, and to keep learning new skills.

Skills

- HTML
- CSS
- JavaScript
- React/Redux
- Bootstrap
- Adobe XD
- Adobe Illustrator
- Express
- NodeJS
- Sequelize
- MySQL
- MongoDB
- RESTful APIs
- Git/GitHub

Education

MAY 2020 - SEPTEMBER 2022

Web Design and Development B.S. / Full Sail University

3.9 GPA - VALEDICTORIAN

Experience/Projects

JULY 1 – AUGUST 31, 2022

Fight Finder / Repo / Live

- Uses PostgreSQL DB, Sequelize ORM, custom NodeJS/Express API and ReactJS front end to offer users a list of upcoming UFC and Boxing events.

JUNE 1 – JUNE 30, 2022

Quiz App / Repo / Live

- Utilizes a React front end to offer up quizzes stored in a MySQL database through a custom API built using NodeJS/Express.
- Uses the Sequelize ORM to seed and query data on the database.

APRIL 1 – APRIL 30, 2022

GamesFree / Repo / Live

- GamesFree uses React and a 3rd party API to offer free games, items, and opportunities to users.
- Allows for searching, filtering, and sorting.
